

AutoForm has chosen the 10th edition

AutoForm present at the trade press on Wednesday morning, June 14th: AutoForm R7 « The next level of Process Simulation » New product ranges and structures

AutoForm was founded more than fifteen years ago in Zurich, has subsidiary offices and representatives in 15 countries offering software solutions for industries in metal forming simulations all along the sheet metal forming process chain. AutoForm chose the tenth edition of the International Business Le Mans 2017 to hold his press conference announcing to media the launch of new improvements performances through a broad range for cutting /stamping :

- Progressive dies
- Cold forming
- TriboForm
- AutoForm Sigma

During this press conference solutions detailed will be supplied with examples of implementation for AutoForm Customer.

In addition, while registrations for personalized face to face meetings are speeding up and also for the allocation of exhibition space have been successful, choices of topics for conferences, testimonials and technical presentations are emerging.

Thus, Bertrandt, Patron and sponsor for the gourmet dinner, will present his vision on « E.Mobility » and its action towards « lightening of body » at two conferences the first on Wednesday evening and then on Thursday morning .Two other presentations are currently being finalized.
